

## Change Project Theory of Change

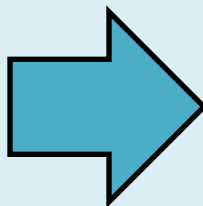

### Impact Statement:

We will begin to shift the attitudinal barriers, which exclude or segregate individuals who have an intellectual disability, that are found within the culture of our school and community. We will do this by raising awareness and by creating spaces and authentic relationships within our school that are fully inclusive.

### Target Population:

Our goal is to impact the school experiences of those who live with an intellectual disability. However, our target audience is the school community whom we will engage in the development of a more inclusive community

### Key Players

### Activities:

- **Campaign**
- **Event**
- **Small Project**

*What is our intention for each activity? How can we use our activities to get us there?*

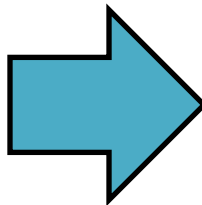

**Intention:** \_\_\_\_\_  
**Intention:** \_\_\_\_\_  
**Intention:** \_\_\_\_\_

### Plans to Sustain Momentum:
