DESIGNED FOR YOUTH

A three-part workshop series designed to empower youth as community builders to help strengthen inclusive cultures in our schools and/or communities. An interactive learning experience for student leaders in grades 7 to 12.

Workshop 1

How can we use our individual experiences to create a collective vision for our school or greater community?

Workshop 2

What assets does our community have that will help you sustain positive growth and support change?

Workshop 3

How can we turn our ideas into action and start building a stronger community where we live, work and learn?

WHO WE ARE

Re:Action4Inclusion is a provincial, youth-led initiative that seeks to empower youth to take action individually and collectively to make our schools and communities inclusive spaces for ALL since 2008. This initiative is supported by Community Living Ontario.

OUR VISION

Led by a Youth Advisory Council, this movement of young leaders is working to change the Ontario narrative of disability and help communities embrace a culture of equity and equal access for all. We create spaces to support youth to have discussions that reframe the understanding of what inclusion is and requires from all of us individually and as a community.

CURRICULUM CONNECTIONS

This workshop has been designed to support the Ontario curriculum. There are many ways to connect this workshop to any course. Workshops are facilitated by an Ontario Certified Teacher and members of our Youth Advisory Council (when available).

Teaching CHV20, HSP3UI, CGC1P, CGC1D or any leadership course? This workshop is for you!
